YIXIN WANG 王亿鑫

SMILE SMILE SMILE

3688 Nanhai Avenue, Nanshan District, Shenzhen, Guangdong Province, China

CONTACT: YIXINWONG1998@GMAIL.COM HOMEPAGE: YIXINWONG1998.GITHUB.IO PHONE: +86 152-1898 -3737

Yixin now is an M.Sc. candidate from SZU, he is Friendly and Positive. Thanks for reading.

SKILLS

COMPUTER SKILLS:

- **Programming Language: Python** Object-Oriented Programming; **MATLAB** Scientific Computing and Simulation;
- **Pytorch** Deep Learning implementation framework **and common DS frameworks**;
- **Linux/Shell** OS & Batch script; **SPSS** Statistical analysis; **Latex** Writing; **AutoCAD** Computer aided drawing; ……
- **(Good at and willing to explore new computer-aided technologies, technology enthusiasts)**

QUALIFICATIONS & CERTIFICATES: Trainee Industrial Engineer, Anonymous Reviewer of ICSI

PUBLICATIONS

JOURNAL PAPERS:

[1] Hong Wang (*Advisor*), Yikun Ou, *Yixin Wang*, et al. "Semisupervised bacterial heuristic feature selection algorithm for high-dimensional classification with missing labels" ***International Journal of Intelligent Systems***, 2023. **(JCR Q1, IF: 8.993)** (Link)(PDF)

[2] Shuang Geng (*Advisor*), Xiaofu He, *Yixin Wang*, et al. "Multicriteria recommendation based on bacterial foraging optimization." ***International Journal of Intelligent Systems***, 2021. **(JCR Q1, IF: 8.993)** (Link) (PDF)

[3] Hong Wang (*Advisor*), *Yixin Wang*, et al. "A population based bacterial colony optimization with dynamic multi-leader co-evolution for multi-objective optimization problems." (*Under review*) (PPT)

[4] Hong Wang (*Advisor*), *Yixin Wang*, Sili Wen, et al. "Multiobjective queueing service network optimization for resource allocation in a hierarchical medical system." (*Under review*) (PPT)

[5] Ben Niu (*Advisor*), Bowen Xue, *Yixin Wang**(*Corresponding*). "Spectral analysis and optimization of thermal emitter in thermophotovoltaic technology via NSGA-II." (*Under review*)

CONFERENCE PAPERS:

[1] Hong Wang (*Advisor*), *Yixin Wang*, Mengjie Wan, et al. "Multi-objective bacterial colony optimization based on multi-subsystem for environmental economic dispatching." In ***ICSI*** 2022. **(Best Paper) (EI)** (Link) (PDF)

[2] Hong Wang (*Advisor*), Yikun Ou, and *Yixin Wang**(*Corresponding*). "A multi-objective structure variant bacterial heuristic feature selection method in high-dimensional data classification." In ***DMBD***, 2021. **(EI)** (Link) (PDF)

[3] Hong Wang (*Advisor*), *Yixin Wang*, Yikun Ou*, et al. "Bacterial foraging optimization with leader selection strategy for bi-objective optimization." In ***ICSI***, 2021. **(EI)** (Link) (PDF)

[4] Hong Wang (*Advisor*), *Yixin Wang*, Ting Guo, et al. "An empirical study of social E-commerce platform on users' intention: take WeChat E-commerce group as an example." In ***ICEME***, 2021. **(EI)** (Link) (PDF)

[5] Hong Wang (*Advisor*), Zhuo Zhou, *Yixin Wang*, et al. "Feature selection for image classification based on bacterial colony optimization." In ***ICSI***, 2021. **(EI)** (Link) (PDF)

EXPERIENCE & NOTABLE CONTRIBUTIONS

1. Scientific Management of Living Supplies During the COVID-19 Pandemic

PROJECT LEADER AND ORGANIZER (2022)

KEY ACCOMPLISHMENT:

- The number of multi-echelon living supplies distribution spots and their locations are estimated and determined based on regional geographic and population information of Changchun city. Further, an intelligent agent is trained based on offline RL for the number of supplies issued. (Brief Intro)
- **"Optics Valley of China · HUAWEI CUP" Second Prize, Postgraduate group, Rank: 290/4021**.

PERSONAL KEY WORKS:

- Funding application;
- Intelligent decision-making agent training based on offline RL for living supplies distribution;
- Identification of key issues, Coding, Experiments, Visualization, Report writing.

2. Optimal Design of Thermal Emitter in Thermophotovoltaic Technology

PROJECT LEADER AND ORGANIZER (2021)

KEY ACCOMPLISHMENT:

- In this project, the relationship between the emission spectra and material properties of single- and multiple- layer are studied respectively. By constructing and solving a multi-objective optimization model, we give a *thermal radiator design solution* of potential material combinations and material parameters under different emission spectrum requirements. (Brief Intro)
- **APMCM Second Prize, Postgraduate group**.

PERSONAL KEY WORKS:

- Implementation and solving for single layer and multilayer structure optimization models;
- Identification of key issues, Coding, Experiments, Visualization, Report writing.

3. Identification and Screening of Anti-Breast Cancer Drug Candidates

PROJECT LEADER AND ORGANIZER (2021)

KEY ACCOMPLISHMENT:

- Based on the information provided for ERα antagonists, *quantitative prediction model* for compound bioactivity and *categorical prediction model* for ADMET properties are constructed, respectively. We provide a stable solution for drugs candidates identification that simultaneous optimizes both bioactivity and ADMET properties. (Brief Intro)
- **"HUAWEI CUP" Third Prize, Postgraduate group.**

PERSONAL KEY WORKS:

- Data preprocessing, Feature fusion predication model construction;
- Identification of key issues, Coding, Experiments, Visualization, Report writing.

4. Teaching & Research Assistant

GREATER BAY AREA INTERNATIONAL INSTITUTE FOR INNOVATION, SZU, RESEARCH ASSISTANT (2021 ~ 2022)

- Assistance in research experiments; Assistance in funding projects application; etc.

COLLEGE OF MANAGEMENT, SZU, GRADUATE STUDENT ADMINISTRATIVE ASSISTANT (2021 ~ 2022)

- Administration; Word processing jobs; Events assistance, etc.

DEPARTMENT OF INDUSTRIAL ENGINEERING, DGUT, TEACHING & LAB ASSISTANT (2017 ~ 2019)

- Assistance in teaching and research activities; Word processing jobs; Events assistance, et al.
- Received positive evaluations from teachers and awarded Outstanding Student Leader.

5. Adjunct Lecturer for College of Continuing Education, SZU

E-Commerce Simulation Practice [in Chinese, further education to college level] (Spring 2022)

Basic C Programming [in Chinese, further education to college level] (Spring 2021)

Key Accomplishment:

- Teaching about E-Commerce fundamentals, platforms and their development, logistics, etc.
- Teaching about programming basic and development process, modular programming, etc.
- Received positive evaluations from students.

Selected Honors

- **Excellent Postgraduate Scholarship, Second Prize by SZU (2022)**
- **Excellent Postgraduate Scholarship, Second Prize by SZU (2021)**
- **DGUT Outstanding Graduate (2020)**
- **National Encouragement Scholarship, by Ministry of Education (2017, 2018, 2019)**
- **The KangHua Scholarship, by DGUT (2019)**
- **The GuangDa Scholarship, by DGUT (2018)**
- **Excellent Undergraduate Scholarship, First Prize by DGUT (2017)**
- **Advanced Outstanding Student, by DGUT (2017)**

Miscellaneous

Look forward to communicating with you further~ 😁

Thank you for checking my resume~ 😁
