EXPERIENCE & NOTABLE CONTRIBUTIONS

Optimal Design of Thermal Emitter in Thermophotovoltaic Technology

PROJECT KEY MEMBER (2021)

KEY ACCOMPLISHMENT:

- This project studied the relationship between the emission spectrum and the material properties for single structure and multiple structure respectively, meanwhile, the **multi-objective optimization model** was constructed to optimize the design of thermal emitters under different emission spectrum requirements. (Brief Intro)
- **APMCM Second Prize, Postgraduate group**.

KEY WORKS:

- Problem analysis and identification of key factors.
- Optimization model construction for single layer and multilayer structure.
- Coding, Experiments, Visualization, Report Writing.

Identification and Screening of Anti-Breast Cancer Drug Candidates

PROJECT KEY MEMBER (2021)

KEY ACCOMPLISHMENT:

- Based on the information provided for ERα antagonists (1974 compound samples, each with 729 molecular descriptor variables, 1 bioactivity data, and 5 ADMET property data), **quantitative prediction model** for compound bioactivity and **categorical prediction model** for ADMET properties were constructed to provide prediction services for simultaneous optimization of ERα antagonists' bioactivity and ADMET properties. (Brief Intro)
- **"HUAWEI CUP" Third Prize, Postgraduate group.**

KEY WORKS:

- Problem analysis and identification of key factors.
- Data preprocessing, Machine learning model construction.
- Coding, Experiments, Visualization, Report Writing.

Adjunct Lecturer for College of Continuing Education, SZU

E-COMMERCE SIMULATION PRACTICE (SPRING 2022)

BASIC C PROGRAMMING (SPRING 2021)

KEY ACCOMPLISHMENT:

- Teaching about E-Commerce fundamentals, E-commerce platforms and their development, Logistics, Marketing.
- Teaching about programming basic and development process, sequential architecture programming, selecting structure programming, loop structure programming, modular programming.
- Received positive evaluations from students.

Teaching & Research Assistant

COLLEGE OF MANAGEMENT, GRADUATE STUDENT ADMINISTRATIVE ASSISTANT (2021 ~ PRESENT)

GREATER BAY AREA INTERNATIONAL INSTITUTE FOR INNOVATION, RESEARCH ASSISTANT (2021 ~ PRESENT)

DEPARTMENT OF INDUSTRIAL ENGINEERING, LAB ASSISTANT (2017.09 ~ 2019.03)

KEY WORKS:

- Assistance in research experiments; Assistance and arrangement of teaching and research activities; Promotion, Publicity; Word processing jobs; Events assistance, et al.
- Received positive evaluations from teachers and awarded Outstanding Student Leader.

SELECTED HONORS

- **EXCELLENT POSTGRADUATE SCHOLARSHIP, SECOND PRIZE BY SZU (2021)**
- **DGUT OUTSTANDING GRADUATE (2020)**
- **NATIONAL ENCOURAGEMENT SCHOLARSHIP, BY MINISTRY OF EDUCATION (2017, 2018, 2019)**
- **THE KANGHUA SCHOLARSHIP, BY DGUT (2019)**
- **THE GUANGDA SCHOLARSHIP, BY DGUT (2018)**
- **EXCELLENT UNDERGRADUATE SCHOLARSHIP, FIRST PRIZE BY DGUT (2017)**
- **ADVANCED OUTSTANDING STUDENT, BY DGUT (2017)**

MISCELLANEOUS

PROGRAMMING:

- **PYTHON OR MATLAB** (WILLINGNESS AND ABILITY TO LEARN NEW COMPUTER-AIDED TECHNOLOGIES), LINUX PROGRAMMING, SHELL SCRIPT, MYSQL ARE IN PROCESSING AND BEING PRACTICED NOW.
